Computer science graduate with 1.8 year industry experience in Data Visualization using Tableau and Jaspersoft Reports. I have 4 years of hands-on experience in Web Development as a freelancer.

Experience:

Systems Engineer, Infosys Ltd. (June 2017 – Present)

Project #1 (MySQL, Tableau, JasperSoft, Highcharts):

- Wrote SQL queries from multiple tables to get the required data for the report.
- Built interactive dashboards using Jaspersoft (Highcharts API) and Tableau.

Project #2 (SQL, Tableau, JavaScript, UNIX):

- Built Dashboards in Tableau with data from multiple sources.
- Built a Tableau Extension to implement write-back mechanism to give the user, ability to modify and save data to underlying data source(Oracle Table)

Freelance Web Developer (2013–2017).

As a freelance web developer, I helped local businesses to get online presence via websites and social media. I used to,

- Design and Develop Responsive websites for Local Small Businesses.
- Customize HTML/CSS themes and PHP plugins for WordPress and Blogger.
- Optimize the sites for Search Engine and Social Media Engagement.
- Build simple single page applications to help company's operations.

Skills and Competencies:

Programming: C, PHP, JavaScript(JQuery, ReactJS, Basics of NodeJS), Go, Python.

Web: HTML, CSS, SASS, JSON, Bootstrap, WordPress.

Databases: MySQL, MSSQL.

OS and Platforms: Windows, Linux, OSX, AWS(DynamoDB, Lambda, API Gateway, S3), Serverless Framework.

Tools and Softwares: MS Office, Photoshop, Google Analytics, Git, Slack, Trello, Postman.

Languages: Proficiency in English, Kannada, and Hindi.

Education:

Bachelor of Engineering(CSE) from NMAM Institute of Technology, Nitte, Udupi in 2017

- Passed with 8.89 CGPA.
- Volunteered in Technical Fests.
- Designed and Developed websites for fests and other college activities.
- Was Chairman of Computer Society of India, NMAMIT Chapter.

Side Projects:

Goof Talk (Go): Terminal based chat application built using Go which enables communication between computers within the network.

Mentored by Mr. Joseph Elwin Fernandes, Sr. Software Engineer at Red Hat.

<https://github.com/GOOFS/go-goof-Talk>

Workshop and Conference Management System (PHP, MySQL, HTML, CSS, jQuery):

A web portal connecting all the departments of the college and Accounts section in which staff enter the details of the workshop and conferences that they have conducted or attended and upload the relevant documents for efficient bookkeeping. Currently being used by NMAM Institute of Technology, Nitte.

Twitter Sentiment Analyzer (PHP, Twitter API, HTML, CSS, Google Charts)

Web application that fetches top tweets from twitter based on the search query (hashtag/username) and categorizes them into positive, negative and neutral tweets.

<http://demo.webception.in/vishwas/twitter/>

To-do List Application (ReactJS, Redux, AWS Lambda, DynamoDB, MaterializeCSS)

Interactive to-do list web application hosted on AWS S3.
